## Career Objective

AI & Data Science student with foundational knowledge of Python, Java, C along with basic problem-solving and programming skills. Interested in developing practical AI-based applications and strengthening technical skills through hands-on projects, coding practice, and real-world experience.

## Education

**B.Tech - Artificial Intelligence and Data Science**
**National Engineering College, Tamil Nadu**
*Aug 2025 – OCT 2026 | CGPA: 8.68 (up to II Semester)*

**Higher Secondary**
**St.Paul's.Matriculation.Higher.Secondary.School, Tamil Nadu**
*April 2023 – March 2024 | 90.66%*

## Skills

| | | |
|---|---|---|
| **Programming Languages** | : | Java, Python & C |
| **Tools & Platforms** | : | GitHub, MySQL & Google Antigravity AI (vibe coding tool) |
| **Core Skills** | : | Problem Solving, Coding & Teamwork |
| **Languages** | : | Tamil & English |

## Areas of Interest

Machine Learning | Database Systems | Software Development

## Projects

**CustomerHub – Customer Management System:** Designed and implemented a JavaFX desktop application integrated with MySQL and JDBC, providing customer authentication, product management, shopping cart functionality, order processing, and profile management.

**AquaVision – Interactive 3D Ocean Data Visualization Platform:** Developed a web-based 3D visualization system integrating numerical ocean models and in-situ observations for exploring temperature, salinity, and ocean currents across depth and time using interactive geospatial visualization.

## Certifications

- Machine Learning Specialization — Andrew Ng | Coursera — Ongoing
- NPTEL | Developing Soft Skills and Personality | Elite Silver (82%)

## Achievements & Co-Curricular Activities

- **1st Place – Coding Competitions:** Secured first place in two coding competitions held at **Karpagam Institute of Technology**, demonstrating strong problem-solving and technical skills.
- **36-Hour Hackathon – VIT Vellore:** Participated in a 36-hour hackathon, gaining hands-on experience in collaborative problem-solving, rapid prototyping, teamwork, and tackling real-world technical challenges.
